Margory Jamileth

Dear Tri-Parish,

Hi, it's nice to be able to write to you again.

Well, regarding my cat, he turned one year old on June 13 and I'm quite glad that you like cats, and I also love mine very much, he's gray with black stripes and green eyes and we call him "Mishi"

I hope you enjoy your summer, thank you that you liked my letter, may God always bless Kathy and your family.

I'm glad to know that you have fun with your friends, I hope you really give your best in your studies.

I can tell you that for now, I have a cough and a cold, but I'm already taking medicine.

Jordyn, how nice to hear from you, I appreciate your prayers and raised mine for your life.

How nice you know the months that you have summer vacations, here the summer vacations are only one week and until November and December, is when we have long vacations, but I don't know how they will be this year.

Well, with the help of God, my mom is a little better and it is a matter of time. No, where I live there are no places to do some fishing.

Now, I will tell you a little about myself and my family. It has been raining here, it has been raining a lot, we are in the rainy season, and my family and I have gotten sick, due to the change in the weather.

I also want to tell you that I am very happy because I got good marks, I thank you for your support and I really want to meet you one day.

We want to know more about your lives.

And congratulations for the effort you make to always move forward
See you soon, with love, Margory.
